

Paper fibre, Liquor & Water filtration

TP-Filter have been producing paper pulp, liquor and water filtration products since 1986. Many of them are related to drum and disc filters. Starting with filter bags, later stainless steel mesh covers and now also a complete range of sectors and supports.

Being experts in woven filtration products, weaving technology as well as mechanical design all our products are carefully made putting the filter fabric or mesh in the first room. For the very best performance and lifetime.
