

# ENVIRONMENTAL POLICY

*Environmental issues are important for us and our aim is to minimise our environmental impact. In order to achieve this, we will:*

Strive to use materials and working methods with the least possible impact on the natural environment and carry out our environmental work in partnership with our Customers and Suppliers.

Ensure that we comply with applicable environmental legislation at all times.

Train our employees in our environmental work and ensure that we maintain continuous improvement by monitoring our environmental goals on an ongoing basis.

Manage our transport and waste in as environmentally friendly a manner as possible.
